**DECLARATION OF KAREN S. ORR, D.C.
IN SUPPORT OF APPLICATION FOR STAY
OF MODIFIED FINAL ORDER PENDING PETITION FOR REVIEW**

1. My name is Karen S. Orr. I am licensed by the State of Pennsylvania as a Chiropractor, and have been in private practice since 1993. I currently am the owner of Orr Family Chiropractic, 1200 Washington Road, Washington, PA, 15301.

2. This Declaration is submitted in support of Respondents' Application for Stay of the Modified Final Order (hereinafter "the Order") issued by the Federal Trade Commission (hereinafter "FTC") on January 25, 2010, and served upon Respondents on January 29, 2010.

3. I first became aware of Daniel Chapter One about 12 years ago when I heard their radio show. I was impressed by their understanding of the human body and the wisdom of their approaches to strengthen the body to heal itself. I telephoned DCO to find out more about their ministry, and have been working informally with DCO since

them. I have great respect for Jim Feijo, as a scientist and as a leading spokesman for the application of Biblical principles to wellness. Tricia Feijo is an outstanding homeopath -- indeed, she has counseled me and my family with respect to homeopathic remedies for many years.

4. All members of my family have used DCO products. I personally take, Endo-24 (i.e., a BioMolecular source of easily-assimilated nutrition), GDU, Omega 3, and Micro Cal, regularly, with great success. When I feel like I need a real lift, I bless my body with 7 Herb Formula, (e.g., for its many healing properties). By way of specific illustration, my husband had a well-established tendency to develop lipomas (benign fatty tumors) on his back, but after a course of taking GDU and L-Lysine, they went away and have not returned. Moreover, I have used various DCO products for my children as they have dealt with various health issues. More specifically, when any of us are fighting an infection or virus, we first utilize Genesis Oil (grapefruit seed extract), this combined with rest and fluids allows the body to heal very quickly. Before I knew of the wonderful healing properties of this product, the one and only time I gave my son (who was 4 yrs. old at the time) an antibiotic, he had a severe allergic reaction to it. With the use of Genesis Oil, he has not had, or needed an antibiotic since. This is a real benefit, as we don't worry about a reaction with this product. In my 12 years of experience with DCO, I have come believe in DCO products as being well designed, and of the highest quality. It would be very upsetting to myself, and others, who use these products as an alternative, for them to be unavailable.

5. For a period of four or five years, I carried a range of DCO products in my practice to offer to my patients, and sold them to those who needed them. In fact, when it

became known that we stocked DCO products, a large number of people came to our office to buy DCO products even though they were not our patients. The only reason that I do not stock their product now is based on choice of mine to be more available to my family and, the easy availability of the product on the DCO website. I direct all of my patients, as well as, non patient DCO customers to the website and order center. Being the mother of two boys, who keep me very active, I have scaled back my time at the office. In doing so, my priorities at the office changed; the time I spend there is now only dedicated to chiropractic care for my patients.

6. In the course of my practice of chiropractic, I have often recommended that my patients use nutritional supplements and herbal products sold at the Daniel Chapter One website -- <http://www.danielchapterone.com>. I have even recommended these products to my colleagues, and continue to do so. None of my patients have ever been harmed by the products sold by DCO. In fact, while selling the product at my office, I never received one complaint from a person who purchased DCO products from me. Many people who have used DCO products have been helped greatly. Just one of many, examples, a forty-five year old woman who has suffered with rheumatoid arthritis for years came in once a month religiously to purchase her GDU, which in her terms “she couldn’t live, or work without.” Pharmaceuticals given to her for the same diagnosis, “just didn’t work as well for her.” This is just one of many customers who purchased DCO products.

7. Over the years, I have examined the statements that DCO has made about the products offered by DCO, and have never found false or deceptive statements. DCO products are described consistent with my understanding of how those products are

manufactured, and how they work.

8. If the FTC's stay were to go into effect, I fear whether the DCO ministry could survive. Certainly, Jim and Tricia Feijo would be unable to share their wealth of experience about healthcare with their radio listeners. It would be difficult to sell products on their website if they could not candidly describe what they should be used for. Although many of the products sold by DCO are available elsewhere, some of their most important products (e.g., ENDO-24, Bio-Mixx, 7-Herb formula) are not manufactured and sold by others. If my family, my patients, and I were unable to obtain these products, it would be harmful to our health, especially my son, who is allergic to most antibiotics. Just because many educated people choose a different path to healing, does not make it false or wrong. In my opinion, any impairment on the ability of DCO and the Feijos to share their wealth of information about how to achieve and maintain good health would harm the health of many persons now using their product, and many more that would otherwise learn of it and be benefited.

Pursuant to 28 U.S.C. Section 1746, I declare, under penalty of perjury, that the foregoing is true and correct.

Karen S. Orr, D.C.
